ABOUT US

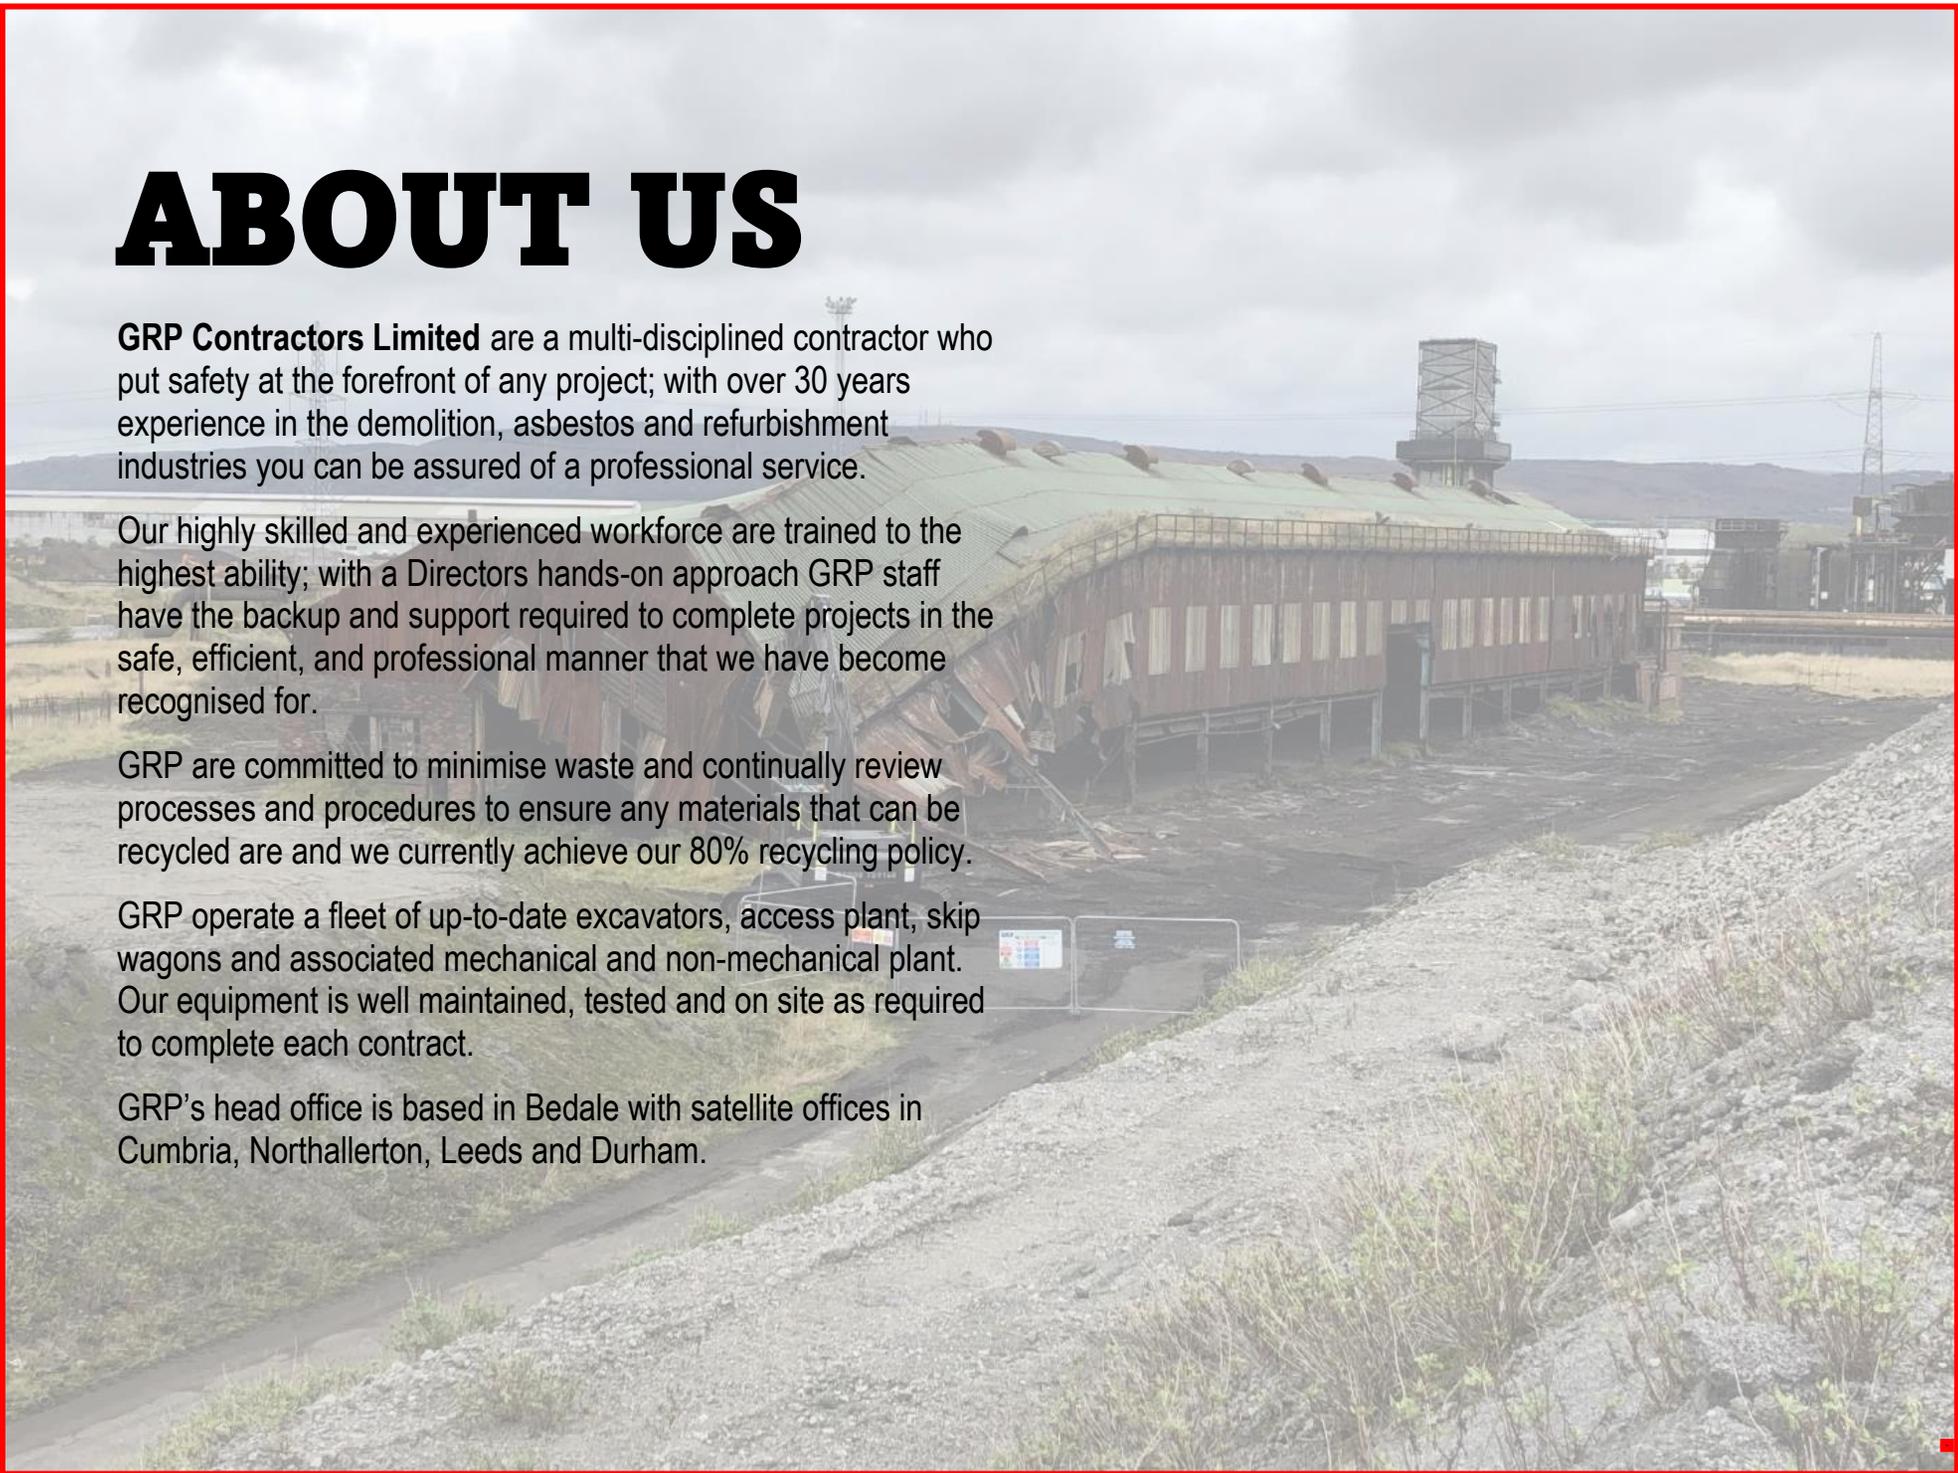

GRP Contractors Limited are a multi-disciplined contractor who put safety at the forefront of any project; with over 30 years experience in the demolition, asbestos and refurbishment industries you can be assured of a professional service.

Our highly skilled and experienced workforce are trained to the highest ability; with a Directors hands-on approach GRP staff have the backup and support required to complete projects in the safe, efficient, and professional manner that we have become recognised for.

GRP are committed to minimise waste and continually review processes and procedures to ensure any materials that can be recycled are and we currently achieve our 80% recycling policy.

GRP operate a fleet of up-to-date excavators, access plant, skip wagons and associated mechanical and non-mechanical plant. Our equipment is well maintained, tested and on site as required to complete each contract.

GRP's head office is based in Bedale with satellite offices in Cumbria, Northallerton, Leeds and Durham.

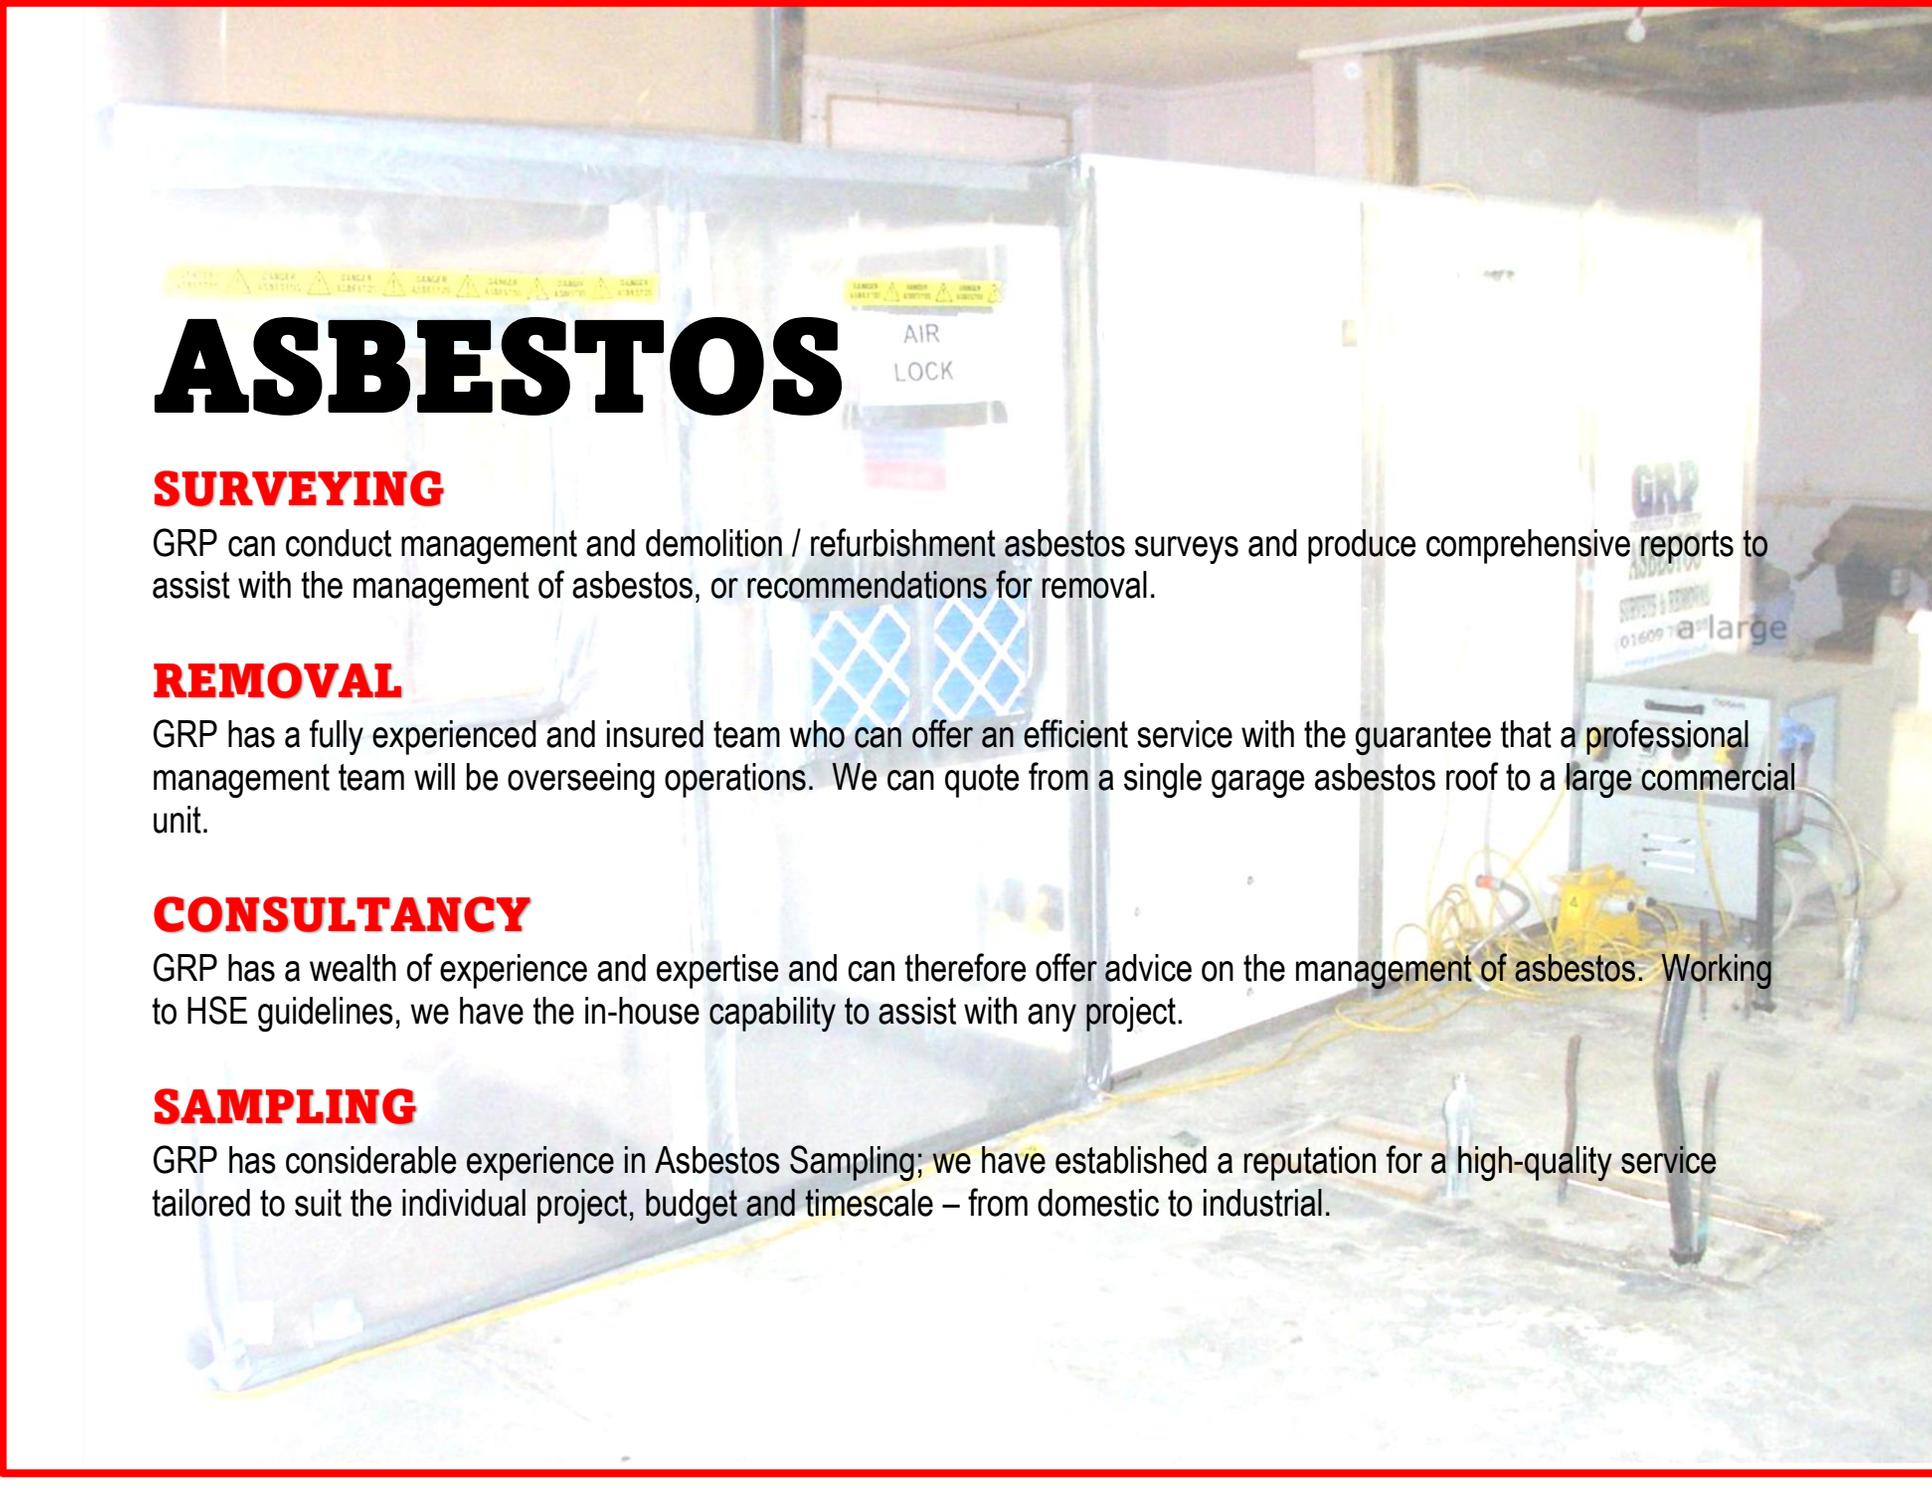

Environmental Health and Safety Policy

- It is GRP policy to promote Environmental, Welfare, Health and Safety measures as a mutual objective of the company, its employees at all levels, and any other persons affected by GRP's operations. The prime responsibility for safe operation and place of work, rest clearly upon all sections of GRP's management.
- This policy is the direct concern of GRP's Senior Management and Safety Advisors; they are accountable to GRP's Director for its overall implementation.
- GRP is fully committed to giving the highest priority to safeguarding the health and safety of employees and all who may be associated with its activities.
- GRP believes that the prevention of accidents and loss or damage to property is an integral part of its management operations.
- Every effort will be made, including the allocation of adequate resources to ensure compliance with statutory obligations (including the relevant approved codes of practice and guidance notes) to provide a healthy and safe environment for employees and others who may be affected by company operations.
- GRP will ensure, so far as is reasonably practicable, safe places of work, the provision of safe plant and machinery, the safe handling of materials and the provision of adequate safety equipment. GRP will also ensure that adequate information, instruction, training and supervision are given to employees to enable them to perform their duties safely.

Signed: **N Vickers**

Managing Director

Mr. Neil Vickers

ASBESTOS

SURVEYING

GRP can conduct management and demolition / refurbishment asbestos surveys and produce comprehensive reports to assist with the management of asbestos, or recommendations for removal.

REMOVAL

GRP has a fully experienced and insured team who can offer an efficient service with the guarantee that a professional management team will be overseeing operations. We can quote from a single garage asbestos roof to a large commercial unit.

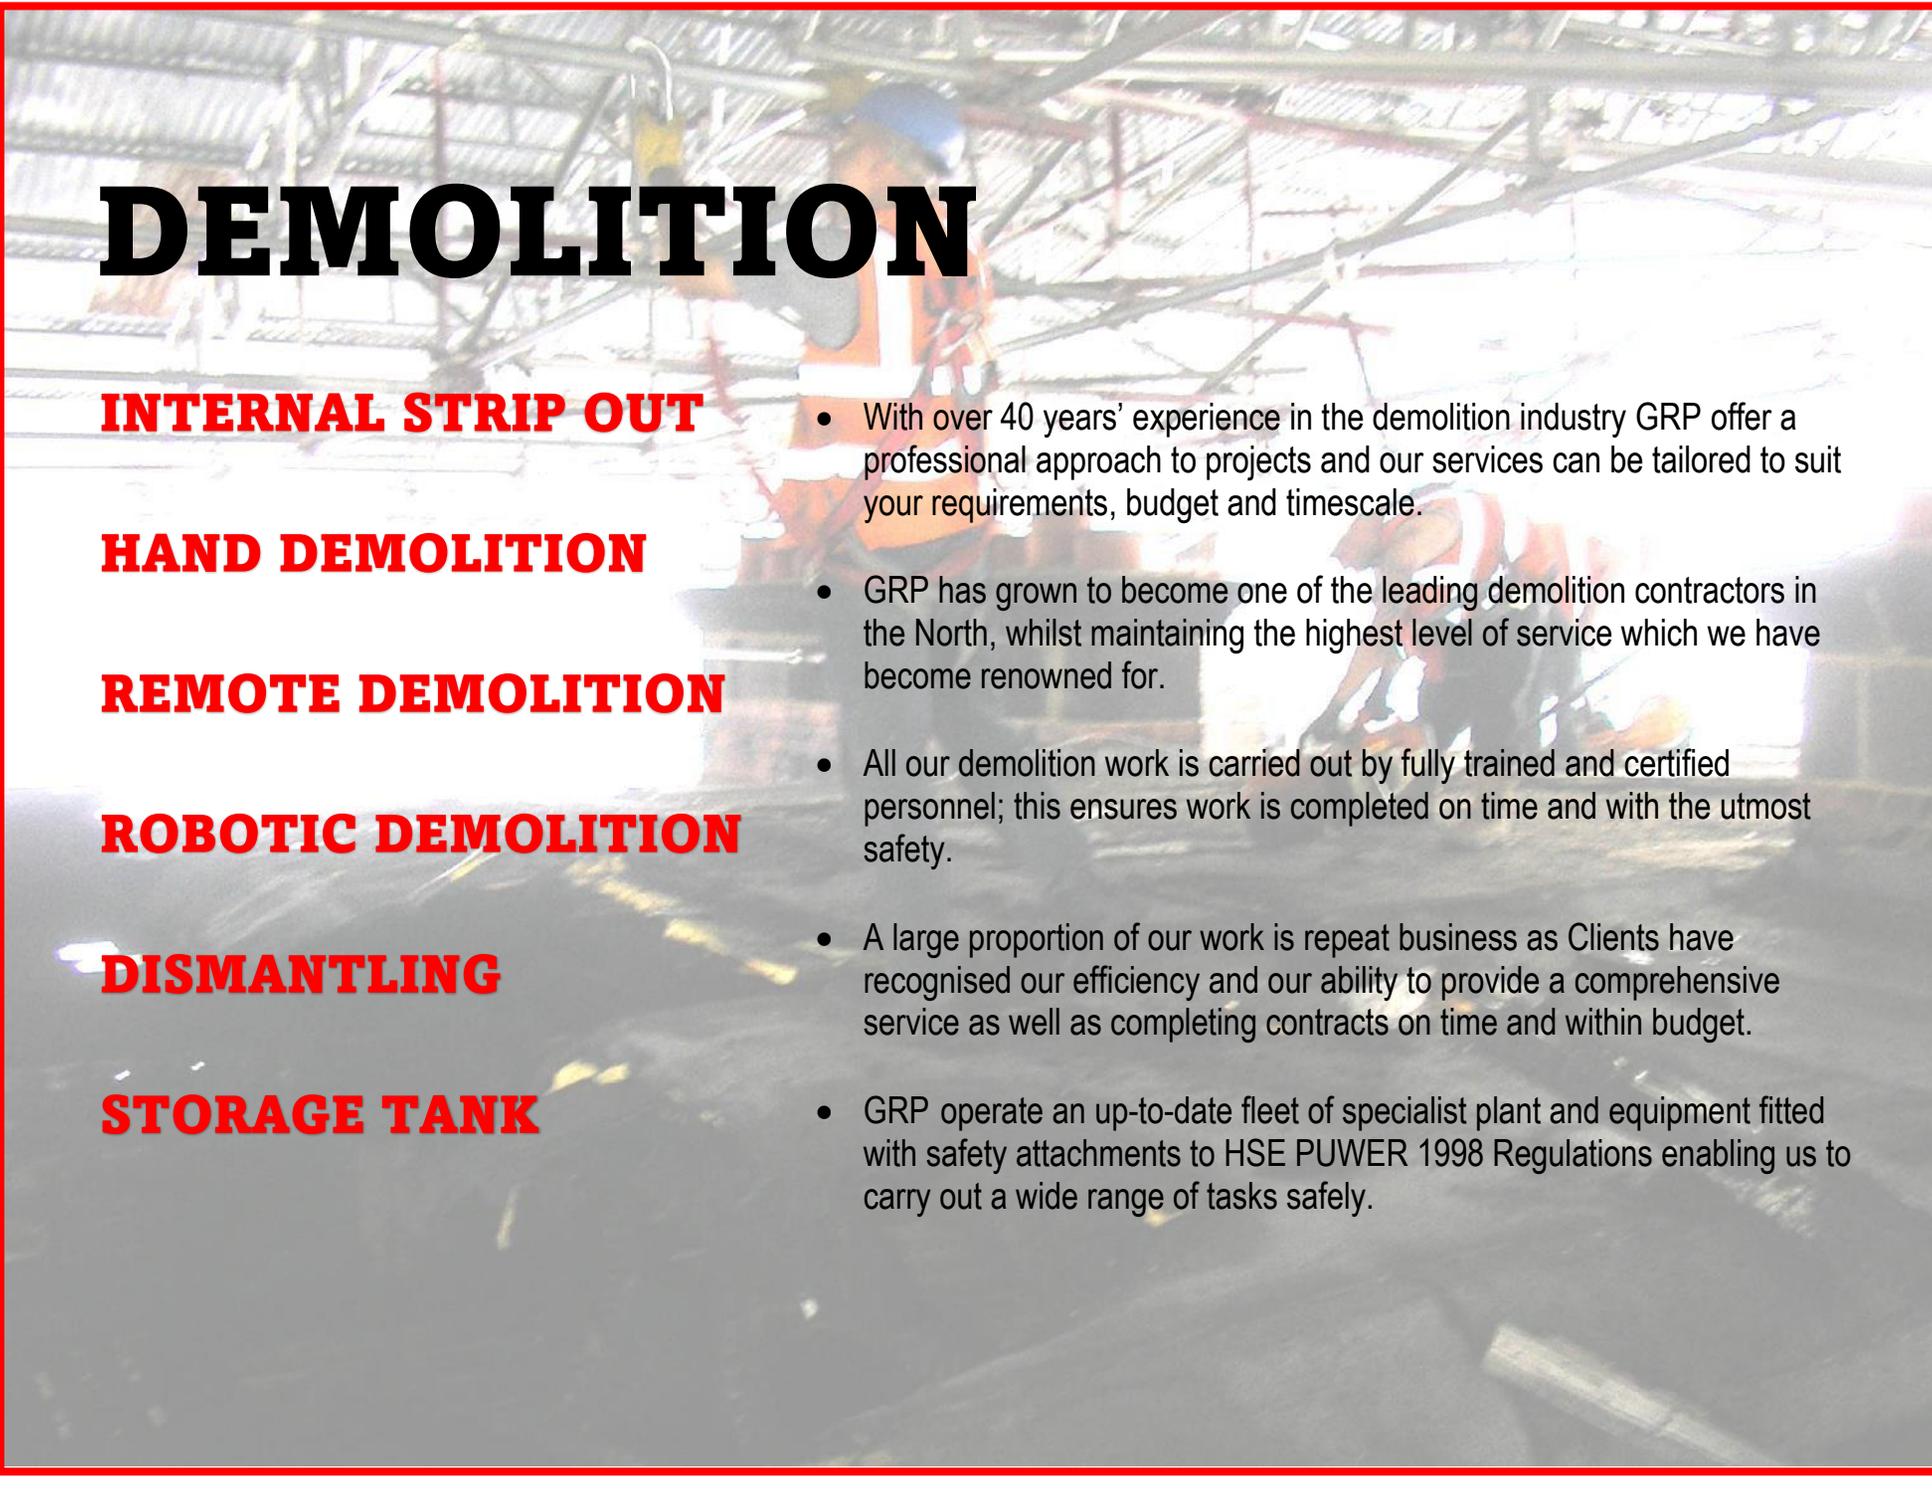

CONSULTANCY

GRP has a wealth of experience and expertise and can therefore offer advice on the management of asbestos. Working to HSE guidelines, we have the in-house capability to assist with any project.

SAMPLING

GRP has considerable experience in Asbestos Sampling; we have established a reputation for a high-quality service tailored to suit the individual project, budget and timescale – from domestic to industrial.

DEMOLITION

INTERNAL STRIP OUT

- With over 40 years' experience in the demolition industry GRP offer a professional approach to projects and our services can be tailored to suit your requirements, budget and timescale.

HAND DEMOLITION

- GRP has grown to become one of the leading demolition contractors in the North, whilst maintaining the highest level of service which we have become renowned for.

REMOTE DEMOLITION

- All our demolition work is carried out by fully trained and certified personnel; this ensures work is completed on time and with the utmost safety.

ROBOTIC DEMOLITION

DISMANTLING

- A large proportion of our work is repeat business as Clients have recognised our efficiency and our ability to provide a comprehensive service as well as completing contracts on time and within budget.

STORAGE TANK

- GRP operate an up-to-date fleet of specialist plant and equipment fitted with safety attachments to HSE POWER 1998 Regulations enabling us to carry out a wide range of tasks safely.

BUILDING REFURBISHMENT

COMMERCIAL

➤ Over the last ten years GRP has worked in conjunction with Patton Construction in the refurbishment of the Tesco Store at Holyhead; the careful restoration of Lowther Castle at Penrith and the Cross Gates Shopping Centre at Leeds.

➤ GRP have also worked with Graham Construction to refurbish The Witham at Barnard Castle.

DOMESTIC

➤ GRP has designed and constructed a link building for Damartex UK joining its Warehouse Unit with its Parcel Division and renewing of concrete warehouse floors within its printing division. More recently work has been carried out to update pipe insulation throughout the Steeton Site to reduce the risk of Legionella disease in the cold-water system.

RECREATIONAL

➤ GRP has completed renovation work for Wetherby Racecourse, including the formation of a hard standing area for erection of hospitality marquees, renovation of the old Saddling Enclosure and the construction of foundations for the new portable building including services.

AGRICULTURAL

The following disciplines have been incorporated into our works:-

- ✓ Cladding
- ✓ Concreting
- ✓ Joinery
- ✓ Mechanical & Electrical
- ✓ Masonry

HERITAGE

We are happy to quote for jobs of any size from a domestic garage concrete base to a large industrial unit.

Stocks Blocks, Stourton, Leed

GRP was appointed main contractor by stocksblocks part of Thomas Armstrong Group to safely dismantle block making plant including mixers, finger carts, stacking machines and silos ready for export.

In addition GRP carried out the licensed removal of Asbestos Insulating Board (AIB) in accordance with the HSE regulations

GRP dismantled portal frame buildings for resale and demolished a variety of structures including concrete ovens and a 30 meter steel chimney. The project was completed in a 12 week duration

Springfield Works Mill, Guiseley

building homes • creating futures

GRP
DEMOLITION
& ASBESTOS

GRP completed the hand demolition of a 100ft chimney and subsidiary buildings using mechanical excavators at the former Springfield Works Mill, Guiseley for Chartford Homes. Restrictions were enforced due to live railway line which ran adjacent to the site and surrounding residential buildings.

GRP recycled all timber waste, brick and hardcore to maintain efforts to minimise the production of waste and landfill materials

In conjunction with Hall Construction and South Tees Development Corporation – some of our recent demolition work at Redcar's former Steel Works

GRP
DEMOLITION
& ASBESTOS

GRP

DEMOLITION & ASBESTOS

Work at the former Steelworks included:-

- The controlled demolition of former Manganese Crushing Plant.
- Demolition of Viewing Platform, Elevated Water Tank, Redundant Substation, Dispatch Office and Redundant Garage.
- Demolition of 2000 linear meters of coke oven gas pipework.
- Various Asbestos removal and disposal.

Crossgate Shopping Centre, Leeds

GRP
DEMOLITION
& ASBESTOS

Crossgate shopping centre is situated in the heart of EastLeeds, GRP were contracted by Bruce Shaw Group to carry out the licensed removal of Asbestos Insulating Board (AIB) in accordance with the HSE regulations.

The shopping centre remained live during the works; GRP provided an outof hours service to accommodate this. Continuous background monitoring was carried out during the works to give assurances and peace of mind to the client.

Majestic Hotel, Harrogate

GRP
DEMOLITION
& ASBESTOS

Tolent

GRP worked with Tolent construction Ltd in a bid to restore the former imposing hotel back to its former glory following a devastating fire.

Working included asbestos removal, strip out and partial demolition works.

Works were completed to program, in a safe and efficient manner and positive feedback was received by the client.

Lowther Castle, Penrith

GRP worked in conjunction with Patton Construction in the careful restoration of the former Stable Block.

GRP undertook various types of work over a 14 month period in the form of asbestos removal, demolition, façade retention, drainage and provision of ducting and channeling for M&E installation.

The works also included the careful recovery of architectural stone and slate for reuse later in the project

Lowther Photography Project
